Portfolio: https://davidnelson-portfolio.vercel.app

## SUMMARY

Full-stack and AI engineer who builds and deploys products with React, Node.js, FastAPI and PostgreSQL. Four hackathon and pitch wins in 2026, including 1st place at The Build 2026. Led a four-person team across Nigeria, Ghana and Ethiopia. Available for remote roles and able to start immediately.

## HACKATHON WINS (2026)

- 1st Place among 43 teams, The Build 2026 (NSK AI and TheUdaraProject): HealthBridge Africa
- Winner, Masakhane Benchmark category, Sahara CodeSwitch Africa Challenge (Intron Voice AI): Weha Health
- Most Innovative Use of AI, GDG Abuja Build with AI.
- Winner, Pitch, Techstars Startup Week Abuja.

## PROJECTS

**HealthBridge Africa** | React, Node.js, FastAPI, PostgreSQL, pgvector, Groq, Docker
Voice-first health assistant in 6 languages (English, Pidgin, Swahili, Twi, Oromo, Amharic) using RAG over WHO and national health guidelines; 300+ visits across 4+ countries.
Live: https://healthbridge-africa.vercel.app
Code: https://github.com/Dav-Nelson/healthbridge-africa

**Weha Health** | React, Node.js, FastAPI, pgvector, Twilio, Telegram API
Maternal-health voice triage agent: extracts symptoms over a multi-turn conversation, checks WHO-aligned danger signs, alerts a care team on WhatsApp and Telegram, and finds the nearest facility.
Benchmarked 4 speech-to-text engines on 150 audio samples and published an open dataset.
Live: https://weha-health-voice.vercel.app
Code: https://github.com/Dav-Nelson/weha-health-voice

**Public Health Professional Website** | React, Vite, Tailwind CSS, Firebase, Cloudinary
Client website on a custom .com domain with an admin dashboard (create, edit and delete blog posts and speaking events), SEO and structured data.
Live: https://yetundeabioye.com
Code: https://github.com/Dav-Nelson/dr-yetunde-website

## SKILLS

**Frontend:** JavaScript, TypeScript, React, Next.js, Tailwind CSS
**Backend:** Node.js, Express, Python, FastAPI, REST APIs
**Data and AI:** PostgreSQL, pgvector, RAG, LLM APIs (Groq, Gemini), speech-to-text
**Tools:** Git, GitHub Actions, Docker, Vercel, Railway, Render, Firebase

## EXPERIENCE

**Team Lead and Backend/AI Engineer, HealthBridge Africa** | 2026
- Led a team of 4 across 3 countries from idea to launch in 6 weeks; owned the backend, RAG pipeline, security and deployment.

**Backend and AI Integration Engineer, Weha Health Team** | 2026
- Built the triage backend, alert escalation and speech benchmark.

**Freelance Full-Stack Developer, Public Health Professional Website** | 2026
- Designed, built and deployed the site, from the content system to the custom domain.

**ICT SAED Trainee, NYSC, Abuja** | 2026
- Built a student platform in camp training; selected to represent the class at the SAED exhibition and presented it to the state coordinator and officials.

## EDUCATION AND TRAINING

Doctor of Veterinary Medicine (DVM), University of Jos, 2017 to 2025: First Class, Distinction
Sansvid-M International professional program (in progress, starts Nov 2026)
Online courses through freeCodeCamp and technical documentation.

## AVAILABILITY

Open to remote roles. Available to start immediately.
